# SL60

A

## 60 kg

*SL 60A installed on AS 924*

Wheel lifter

**PERFECT INTEGRATION**

automotive service equipment

## Main features

The **SL60 A wheel lifter** is designed for customers who work with large, heavy wheels on an everyday basis.

- Installed in front of the tyre changer, **it integrates with the basic machine to perfection**, eliminating all vertical wheel lifting effort. It complies with all workplace safety regulations.
- The roller bed lifter platform **makes bead breaking quicker and easier**.
- Fully air operated.
- Available for the Aquila AS 924 Series tyre changers only.

by Marketing - Cod. DPWF00515- UK - 06/2020.
